

Dear George Mason Resident,

Apogee's IPTV service, **Stream2**, is available to all on-campus residents. With Stream2, you can watch TV on your iPhone, iPad, Android phone, Android tablets or through Apple AirPlay. In addition, Amazon FireTV and Fire Stick, which can be purchased online or at various retail locations, is also an option to view Stream2. You can also watch live TV through your computer using IE, Firefox and Safari. Set up your account, and begin watching TV today!

Please note - The Stream2 service is available wirelessly using the MASON-SECURE SSID and from wired ports in the Residence Halls.

SET UP YOUR ACCOUNT

Residents can register for an account at **MyCampusVideo.com**. Once your account has been created, please follow the next steps to get connected to Stream2:

1. The next step is to download the **Stream2 APP** to your devices. **Download instructions for the three most popular devices are on the next page**
2. Go to **Help.MyStream2.com** Installation and Setup for instructions on how to download the app to your approved devices.
3. Once the app has successfully downloaded to your device, use your **MyCampusVideo** username and password to login to the app.

NEED SOME HELP?

If you need any help connecting your devices, a support representative is available 24 hours a day to assist you.

- Call **Apogee** support at **(844) 459-7405**
- Text "**MyStream2**" to **84700**
- Chat live at **MyCampusVideo.com**
- FAQ's - Go to **help.mystream2.com**

Sincerely,
The Apogee Team
